TCG POSITIVELY DISTINCT®

AGILE
Reduce Costs. Accelerate Delivery.

TCG's Agile approach promotes effective collaboration with customers to identify their business needs, eliminate wasted effort, and drive consistent delivery of applications and software that improve mission delivery.

SOLUTIONS

- Agile Coaching
- Software and Application Development
- Agile Transformation

METHODS

- Scrum | Kanban
- SAFe (Scaled Agile Framework)
- Scrum of Scrums—Certified
- LeSS (Large Scale Scrum)
- DA (Disciplined Agile)

WORKFLOW TRANSPARENCY
Provide our customers with real-time data and open access to operational information.

INTEGRATED PRODUCT REVIEWS
Design a space for customer experts and leadership to direct and guide product development.

CUSTOMER-CENTRIC AGILE

COLLABORATIVE RETROSPECTIVES
Create a setting for open, safe, and inclusive commentary on how we can improve our service.

CUSTOMER-FOCUSED SOLUTIONING
Connect our technical expertise and client's organizational insights to identify solutions that quickly deliver business value

READ THE SUCCESS STORY » Agile Transformation and Modernization at the Millennium Challenge Corporation.

DEVSECOPS
Unify Teams for Efficient, Secure Delivery.

In complex environments with distributed responsibilities, TCG builds unified teams that share responsibility to consistently deliver and maintain secure applications and tools.

SERVICES

- Continuous Delivery Pipeline
- Automated CI/CD
- Automated, Continuous Testing
- Zero-Trust
- Integrated Agile Practices
- System Monitoring
- Iterative Change Management

SOLUTIONS

- Jenkins
- TeamCity
- tenable
- splunk>
- RED HAT ANSIBLE
- SUBVERSION

DEV — CODE, PLAN, BUILD, TEST, RELEASE
OPS — DEPLOY, CREATE, MONITOR

READ THE SUCCESS STORY » TCG created a low-cost security dashboard to provide a clear and comprehensive view of a security environment.

TCG POSITIVELY DISTINCT®

LOW-CODE
Accelerate Development. Reduce Costs.

As policies, mission scope, and user needs rapidly shift and expand, TCG's low-code solutions allow Federal agencies to quickly adapt and continue to deliver efficiently and effectively.

SERVICES

- Application Development
- Workflow Automation
- Website Development
- Data Visualization

SOLUTIONS

ATLASSIAN

Jira Software   Confluence

Microsoft Power Platform

Power Automate   Power BI   Power Pages   Power Apps

$500 thousand
Cost savings over traditional acquisition

One million
Subsequent cost savings per agency

Three months
Users get access approximately 4x faster

READ THE SUCCESS STORY » TCG developed a Jira-based system that automated the creation, editing, approval, and submission of SF132 Apportionment Documents.

ARTIFICIAL INTELLIGENCE (AI)
Custom AI for Real Mission Value.

We collaborate with federal clients to define and execute tailored AI strategies, develop and deploy specialized applications, and seamlessly integrate AI capabilities into enterprise operations.

SERVICES

- AI Strategy & Governance
- AI Strategy & Governance
- AI Use Case Design and Development
- Multi-Agent Architecture Workflow Design

EXAMPLE USE CASES

- GSA SRT — Identifying 508 standards in solicitations
- OMB FPI — Classifying assistance programs for budget analysis
- TCG's ABBIE — Sandbox for document lookup, text generation, summarization, and text-to-code figure development. Sentiment analysis and draft responses to public comments

CORE AI FUNCTIONS

AI SUMMARIZATION
Search and summarize a library of existing text for understanding or trend analysis.

AI CATEGORIZATION
Group new data according to provided reference data.

AI CODE GENERATION
Translate written problem statements into code using text-to-code technology.

CLOUD
Securely Scale Services as Demand Grows.

Through cloud technology, TCG modernizes government services for improved availability, scalability, and security. We have configured and deployed cloud environments for mission-critical applications on platforms such as AWS, Cloud.gov, and Microsoft Azure.

SOLUTIONS

aws

Amazon ECS

Microsoft Azure

kubernetes

SERVICES

- Native Cloud Development
- Migration
- AWS Elastic Container
- Software as a Service (SaaS)
- Platform as a Service (PaaS)
- Infrastructure as Code (IaC)
- Serverless Architecture
- Certified AWS Solutions Architects
- Virtual Private Networking (VPN)
- Application & Supply Chain Security

SUCCESS STORY   FCC ECFS

The Federal Communications Commission (FCC) Electronic Comment Filing System (ECFS) allows the public to participate in shaping telecommunication and broadcast rules, such as net neutrality. The previous version of ECFS crashed during high traffic periods. TCG collaborated with the FCC to develop a cloud-first, scalable architecture using AWS's Elastic Container Service (ECS) to handle surges in demand and ensure data security. This architecture reduces single points of failure and saves costs by adjusting computing power as needed.

CLOUD: INFINITELY SCALABLE

In July 2022, ECFS was tested when Dish Network proposed using the 12GHz radio spectrum for a 5G network, prompting SpaceX to urge Starlink users to protest the initiative. As a result, ECFS received 95,000 comments within a week from petition signatures. Despite the traffic increase, ECFS's response time remained stable, demonstrating the system's scalability and reliability.

READ THE SUCCESS STORY » FCC ECFS: Infinite Scalability at the FCC.

CORE VALUES

TCG has its heart on its sleeve. We live and die by our treasured Core Values, the simple directives promoted by our founder and taught to every TCG employee. Our pledge to all of our customers is that our company will always uphold these values and, if they are ever contravened or compromised by any employee or subcontractor, our CEO will personally take direct action.

We are intelligent

We invest ourselves in the project

We prove our value

We are collaborative

We are fair, honest, and open

We value our families
